DISSOLUTION NOTICE.

THE CO-PARTNERSHIP BETWEEN
the undersigned and the firm name of Messrs.
Bovard & Co., has this day been dissolved by
mutual consent. Bull Runners having disposed of
his interest to Mrs. Elizabeth Compans. The

NEWS OF THE MORNING.

The President finds the charges against Governor Potts of Montana false and dismissed the matter. Instead of injuring Montana's credit, it is better than that of any other Territory in the Union. Under Potts' administration Territorial warrants increased in value from 60 to 87 1/2 cents on the dollar.

The Secretary of the Treasury does not consider the passage of the act by the Illinois making silver coin a legal tender within the limits of that State as a very important event. The Government is ready to supply the people of the State of Illinois and those who may have creditors there with all the silver they may desire in exchange for greenbacks.

The latest rumor on the street is that Flood & O'Brien have secured control of the Sutter Tunnel, the recent disastrous break in stocks having so frightened the English stockholders as to cause them to sell out very cheap. Rumor also says that the bonanza people will soon take charge of the property.

Efforts are being made by a number of creditors of Rothschild & Heymann, dry goods importers, No. 317 Broadway, New York, to throw the firm into bankruptcy. A petition to that effect has been filed, but no order for adjudication has yet been entered. Their liabilities are much greater than at first supposed, being \$325,982. Their nominal assets are \$181,031.

At the Bay District Park yesterday Charles Crocker's double team attempted to beat 2:27 1/2, the best double team time ever made. The track was in fine condition, but the wind blowing almost a gale from the north. In the first heat the mile was made in 2:31; in the second heat in 2:36 and 2:30 in the third.

Judge Dillon, of the United States Circuit Court, has decided that the east half of the Union Pacific Railroad bridge at Council Bluffs is subject to taxation by the local authorities on the same basis as individual property. The taxes amount to over \$12,000.

There is no truth in the rumor that the Jones party represented by Col. John P. Jackson have given up the fight to retain control of Crown Point. They are armed with proxies and expect to control the election without the trouble of buying the majority of the stock.

The gross earnings of the Central Pacific Railroad Company for April were \$1,416,000, and for the first four months of the year \$4,734,000, against \$4,623,300 for the same time in 1874 and \$4,372,000 for the same time in 1875.

The Commercial Herald notes sales of \$250,000 Virginia City Bonds, private; \$67,000 Storey county 10 per cent. bonds, 99 1/2 and interest, and \$40,000 do at par and interest.

Bosco had a good house last night, among which were many ladies. He introduced new tricks and delighted all. This afternoon a matinee and to-night a grand windup of his excellent performance here. He's immense.

The Easter Term of the "School for Girls" will close next Wednesday, May 23d. The examination of the different classes will begin Monday and continue three days. The examinations on Monday and Tuesday will be wholly in writing. Those on Wednesday will be oral. Parents and guardians, and all friends of the School are cordially invited to attend, especially on Wednesday. The exercises begin each day at 9:15 A. M.

C. J. CHAMBERS is now stocking the road from Winnemucca to Cornucopia, preparatory to starting his stage line, and has gone to Unionville to purchase horses.

FOUND.—A revolver was found, and the owner can have the same by proving property and paying charges. Inquire at Yankee Dodge's.

EVERYTHING is going along smoothly up at Mackay-Fair's camp.

Distortion Court will be in session next week, commencing Monday.

HOW IT OPERATES.

The mill men on the Truckee will not be disappointed at the news received that Yerington has sold the bonanza folks millions of feet of timbers at the low rate of \$18 50 per thousand, when the usual price has been over \$20, and then he, Bliss and Mills came near enjoying a monopoly of the business. They are now forced to come down in their price, from circumstances over which they had no control. At such prices there is no use for the mills along the Truckee to think of being able to find a market in Virginia for their supplies. At least while Yerington charges them \$9 per thousand feet, amounting to \$72 per car, to transport it from Reno to Virginia. This charge is simply enormous. Just think of it! Let us see what the next Legislature will do about it.

THE "REFORMERS."

It is amusing to note the "big men" of San Francisco who are now clamoring for "reform" in the management of our mines, and the other industries connected therewith. Sharon, Mills, Col. Fry, Flood and the rest of them. Here we have them in a nutshell—representatives of the mills, mines, railroad, large salaries, etc. What a pity they have but now discovered that "reform is necessary."

FINGER RINGS.

Far back in the ages the ring was the symbol of office and a mark of rank. Kings were used as signets, and were tokens of authority, by governors and priests in Biblical times; and from those times down to a period when rings became merely universal and ornamental, rings had, in every use, a peculiar significance. Before even the great could conveniently write so much as their names, the signet was used instead of the signature to official and formal documents. There was a superstition that if a man, when thus affixing his seal, broke the ring, his speedy death was foreshadowed. Forgery by affixing a seal with a ring was a death offense in Egypt. From this use of the ring, the next use, that is, as a symbol of rank and power, naturally came about. Alexander the Great strikingly exemplified this symbolism when, lying speechless on his deathbed, he handed his signet to Perdiccas, as a sign that Perdiccas should administer his kingdom. More interesting is the ring regarded not only as a symbol, but as a sort of bond, in betrothal and marriage. Nor have the engagement and wedding rings quite lost the charm of this symbolism yet. The wedding ring and its significance are quaintly characterized by Dean Comber when he says: "The matter of which this ring is made is pure gold, signifying how noble and durable an affection is: the form is round, to imply that our respect or regard shall never have an end; the place for it is on the fourth finger of the left hand where the ancients thought there was a vein which came directly from the heart, where it may be always in view, and, being a finger least used, where it may be least subject to be worn out; but the main end is to be a visible and lasting token of the covenant which must never be forgotten." The ring used, indeed, to be also a sign investing the wife with authority over her household, for with it the household keys were delivered to her among the Romans. In the Orkneys to this day the youths and lasses signify their betrothal "by clasping hands through a great round hole in one of these weird monoliths known as the Standing Stones of Stennis." Here, possibly, is the origin of the pleasant custom of slipping upon the dainty finger of the lady love a token that her whispered promise has bound her to a new fate.—Appleton's Journal.

There is much talk in New York about the discourtesy shown the President by the two Russian Grand Dukes, who, when attending the reception given by Governor Morgan, left before the President arrived, though the President was mentioned in the invitation cards. The reason given was that the crush was so great, but this is regarded as a weak excuse, and Governor Morgan was especially chagrined.

BLACK HILLS.

The War Department has issued a circular announcing, for the information to all concerned, the following routes connecting the Missouri river with the Black Hills, in accordance with the late treaty with the Sioux Indians:

Route No. 1.—Beginning at Bismarck, Dakota, the present western terminus of the Northern Pacific railroad, it will cross the 103d meridian of longitude, the western boundary of the Sioux Reservation, on the shortest and most practicable route to Deadwood City.

Route No. 2.—Beginning at a point on the right bank of the Missouri river, known as Fort Pierre, or at some point not over 18 miles north of that place, it will cross the 103d meridian on the shortest and most practicable route to Deadwood City.

Route No. 3.—Beginning at the Yankton crossing of the Missouri river, and thence up the south bank of the Niobrara to its crossing, opposite the mouth of the Keya Paha river, thence up the latter stream to or near the sources of Porcupine creek whence it will cross the 103d meridian on the shortest and most practicable route to Custer City.

All people who establish themselves at stations along these lines are notified that such establishing will not carry with it any proprietary right to the land, which will remain subject to conditions that may be imposed by the Secretary of War. The western boundary of the Sioux Reservation, as fixed by recent treaty, is as follows: Beginning at the intersection of the 103d meridian of longitude with the northern boundary of Nebraska, thence to its intersection with the south fork of the Cheyenne river, thence down said stream to its junction with the north fork of the Belle Fourche, thence up that fork to the 103d meridian, thence to the south branch of Cannon Ball or Cedar creek.

Pistol Exercise.

Night before last a rumor circulated in town that a Frenchman had been shot. An investigation gives these facts: A man had a difficulty with a woman of easy virtue and she set a dog on him. He pulled a pistol, fired two shots, and laid his dogship out as cold as a wedge. A "friend" of the woman "went for" the shooter, who met him with the club end of his pistol, and after fetching a couple solid raps across the head gave him a quietus, and put an end to the ruction, but not the man.

Held Over.

Jas. Morohan and Edward Wallace appeared before Judge Richardson yesterday to explain why they stole that jewelry from Mrs. Jaques day before yesterday. They were held to answer before the Grand Jury, in the sum of \$500 each. Not being able to get the bonds they were escorted to the county jail.

Ingersoll.

Col. Bob Ingersoll, the noted Illinoisian, was a passenger on the delayed train yesterday, and we had the pleasure of meeting him at the depot. He looks something like Tom Fitch, though larger. He speaks in San Francisco on the 22d.

FRANKTOWN was well represented in Reno yesterday. Joe Frey, Judge Owens, E. B. Towl, Maurice May, E. Twaddle, A. H. Perkins and others were here on that road business.

A Singular Case.

Eight months ago there came to Reno a fine looking German, by name Otto Galahner, and engaged quarters at Wintermantle's, where he has stopped ever since. Our citizens will remember him by the peculiarity of his dress, and from a satchel that he wore suspended by his side. His attire has often been a subject of comment with those who knew nothing of the man. He was generally considered to be possessed of considerable money, and by some thought to be slightly deranged, which turns out to be the fact. Yesterday District Attorney Cain thought it best that some means should be taken to protect the man, and so he was brought up before Judge Richardson, the case explained, and that official directed Constable Barlow to relieve Mr. Galahner of his effects. In his satchel was found \$740 in coin, a \$1,000 Golden Gate Park bond of San Francisco, and a beautiful cluster diamond ring valued at \$1,000. There was also removed from his person a lady's opera chain. These were placed in the Reno Savings Bank for safe keeping, and our German friend allowed to return to his hotel. It seems that his insanity is of a very mild type, but his eccentricities show that he needs watching and protection, or else the cut-throats around town would soon have him and his property. Some time ago he went to Hagerman's and ordered a \$20,000 bill of goods. A few days ago he wandered off into the mountains west of town, and was not found for four days afterward. He explained by saying that he had taken up a ranch. Other such instances are reported. The German Consul at San Francisco knows all about the man, and says he belongs to one of the first families of Germany, and is immensely wealthy. Joe Frey acted as interpreter in the proceedings in the Justice's Court yesterday, and declares that the man speaks the finest German imaginable. Altogether it is a singular case.

Detention.

The west bound passenger train did not arrive here until 10:30 yesterday morning, being 11 hours behind time. The detention was owing to a freight train being ditched near Orleans night before last.

Picnic Postponed.

The excursion to Donner Lake has been postponed until next Saturday. Mr. Higgins thinks by that time the weather will be just right.

Large Sale.

We hear that Yerington, Bliss & Co., of Carson, have sold Mackay & Fair eleven million feet of mining timbers at \$18 50 per thousand. Heretofore mining companies have been paying \$23 and \$24. "Reform is necessary."

Mining Stocks.

The mining share market is improving. Overman jumped up 14 yesterday, the bonanzas marked 27, and all the others showed a healthy advance. The market weakened in the afternoon.

The irrepressible Redwill was in town yesterday canvassing for subscribers to several fine books. A rustling genius is that Redwill.

TOWN, THE FINEST BRANDS

Mackay-Fair Flume.

A description of a few leading features of the great flume of Mackay & Fair, in this county, of which frequent mention is made, will convey to the reader a good idea of the general character, uses and value of these structures. This flume, which like all the others, is of a V shape, is 15 miles long and cost, with its appurtenances, about \$250,000. It belongs to the Bonanza firm and was built in 1875 to supply their own mines and mills with lumber, underground timbers, fuel, etc., their requirements in this line being enormous, the item of firewood alone amounting to 50,000 cords per year. This flume commences at Hufaker's Station on the railroad and extends thence in a westerly direction up into the Sierra, rounding in its course or cutting through sharp points of the mountain and crossing deep chasms on lofty trestle works, its location and planning having involved a large amount of practical talent and engineering skill. The sides of the structure are composed of 24-inch plank, two inches in thickness, the whole set in a strong framework resting on a solid foundation. 2,000,000 feet of lumber and 20 tons of nails were used in building it. This flume has capacity to carry down and deliver at its terminus 500 cords of firewood, equivalent to 500,000 feet or lumber per day. From two immense reservoirs built near its head, water is kept in ample and steady supply to the flume through a ditch connected therewith. In the neighborhood of their works this firm have secured some 12,000 acres of timber land, covered with pine, fir and tamarack, the whole capable of yielding 600,000 cords of wood and more than 100,000,000 feet of sawed lumber. The other flume companies also own considerable tracts of forest lands, with water privileges and other costly appurtenances, these estates with their improvements being esteemed among the most valuable properties in the county.

Glendale Cleanings.

The past week has been an unusually wet one for this season of the year.

The rain has benefitted Glendale and vicinity several thousand dollars worth, and should we now have a period of good warm weather with nights free from cold winds and frosts our ranchers would be in their element. The fruit trees have not been seriously damaged as yet, some of the trees are fairly over-loaded with blossoms. Grains never looked better.

Feed on the meadows and on the hills is in fine condition and stock is doing finely.

Sandy Crocker is having a good job done on the road, commencing at his house and extending some distance past the school house. If there was a little more enterprise shown in this direction by some others of our residents we would soon have the finest, instead of the poorest road in county. The travel between Glendale and Reno is considerable and if those living along the road would each put four or five days work upon the road we would have a thoroughfare to be proud of.

Prof. Harman, the celebrated ventriloquist, etc., came, he saw (the audience of one), he conquered (his harsh feelings), and departed (without performing). If the professor would only try the effects of a little printer's ink in the JOURNAL, we think his receipts at the door would be considerably increased.

The School Trustees have appointed R. H. Kinney for School Census Marshal.

Franktown Road Case.

That Franktown road case promises to become one of our most notorious cases. It has been so frequently mentioned in these columns, that a recapitulation is not now necessary. Yesterday the parties were here before Judge Richardson, and the case occupied yesterday afternoon and evening. The point being argued was as to the jurisdiction of this Court. The Judge overruled the demurrer of Owens and Frey, who then asked to have the case transferred to the District Court. Taken under advisement.

LOUIS DEAN lost a fine colt yesterday at Glendale. The animal attempted to jump a fence, but was caught and impaled upon a picket. We believe the colt died a short time after.

OF SMOKE AND CHEWING

TO THE CITIZENS OF RENO.—Yankee

Dodge having decided to remain in Reno for a few weeks longer takes this method of calling your attention to the fact. Having for many years been connected with the well known cheap house of I. D. Wilson & Co., No. 75, Bowery street, New York, enables me to sell goods at lower rates than those less favored. My stock consists of almost everything you can think of, in fact a general variety store. New goods will be constantly added. My aim will be to give 25 cents worth of goods for every two-bits received, and any article not as represented the money will be refunded. No two prices, a child can buy as cheap as a grown person. Come in and price goods, no one expected to buy unless they so desire. Peddlers supplied at less than San Francisco prices. Come and see us, corner Virginia and Second street, opposite New Odd Fellows Hall.

YANKEE DODGE, Proprietor.
L. D. ADAMS, Manager.

HOOLE'S PHARMACY.—TO THE APPLICABLE.—We sell pure drugs and medicines, compound prescriptions from the purest and best material in the world, at our usual low rates—fifty per cent less than was ever charged in Reno. Our reputation for fair dealing and moderate charges being now well established, and thanking a discriminating public for their considerate patronage I will offer still further inducements in low prices for toilet articles and all goods usually kept in a first class drug store, and invite especial attention to the small margin at which such articles can be purchased at our store.

S. F. HOOLE.*

A FULL line of crockery and glassware has just been received by J. C. Hagerman, and he says to saloon keepers, if they want the latest style in bar fixtures, they can call on him and get the "very thing." In addition to the above he has also a complete assortment of China dinner and tea sets, glass sets and a complete stock of Rogers Bros.' and Reed & Barton's silver plated ware of the best quality. These goods were bought in Boston at a ruinous low price and will be sold here at corresponding figures. Call and examine.

COLEMAN has hot baths at all hours.

GOOD PLACE TO GO.—Wintermantle's hotel and restaurant, Deutsches Gasthaus Pension Francaise, Center street, near the depot, Reno. Also, El Dorado saloon, opposite the hotel, and to which is connected a shooting gallery, tin pin alley, billiard table and pigeon hole; also musical instruments of all kinds. Musicians can choose their own instruments and be satisfied they have a good thing, from the piano to the fiddle, etc.

PRESCRIPTIONS carefully compounded at City Drug Store (east side of Virginia street) at all hours of the day or night, at prices to suit the times, and from the best drugs and extracts in the western market. We cordially invite those in need of medicine to give us a trial.

MATHEWSON & McRAE

MILLINERY GOODS.—Mrs. Prescott's Spring and Summer stock of millinery goods can now be seen by the ladies of Reno and vicinity. It comprises the latest novelties in trimmed and untrimmed hats, flower ornaments and trimmings of every description, and at prices to suit all. New articles will be received constantly and novelties added during the season.

THE Davis is still in the field. For beauty, strength, and simplicity the Davis sewing machine has no superior. Sold on the most reasonable terms. Liberal discount made for cash. To be seen at my residence on Lake street near the Pollard House. M. G. BRADLEY, Agent.*

Commercial Row, Between Virginia and Sierra Streets, Reno.

Are now opening a new and complete stock of above mentioned articles which we purchased at the very lowest rates and are determined to give our patrons the benefit thereof. Being established here so long, it is almost useless to mention that what we say we mean to do—we don't puff and blow; never compromised with our creditors, and still live and thrive.

Call and examine our stock and prices before purchasing elsewhere.
